

# A2A CHURCH PLANTERS' ASSESSMENT

EQUIPPING LEADERS, EMPOWERING CHURCHES

**A robust church planter assessment is not only ideal, it is essential. A person or couple who have a conviction to plant a church need more than faith. Faith is essential, but so is the right gifting, skill set and character**

Tim O'Neill, Executive Director – Exponential Australia

**There is a need to clarify and confirm the call of the church planter**

Ric Thorpe, Archbishop of Melbourne and Metropolitan of Victoria

## **WHAT IT IS:**

The Church Planters Assessment evaluates candidates with a researched behavioural profile that identifies the key behaviours associated with successful church planting.

## **WHY IT IS IMPORTANT:**

A2A's behavioural assessors have completed rigorous, hands-on training to provide the most valid and reliable assessment of the church planter's potential. This process is designed to set prospective church planters up for success by identifying strengths, growth areas, and support needed for effective ministry.

## **HOW IT IS DELIVERED:**

The Church Planters Assessment is an online assessment and interview. A report is provided to the church planter and sponsoring organisation, with additional coaching available if required.

## **TIME FRAME:**

The behavioural assessment interview takes approx. 3-5 hours
